Re: Review of Soldier Summit Water System

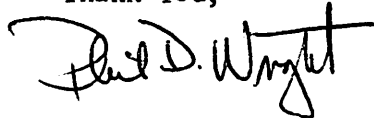

Gentlemen:

On December 22, 1980, I reviewed the water system that serves your community. The inspection revealed that there are several modifications that are required before your facility will comply with the Utah Public Drinking Water Regulations.

Please note the section entitled " Results and Conclusions" at the end of this report. This section recommends actions that should take place as soon as possible to bring the system into compliance.

If you have any questions concerning this report or if I can be of assistance, please feel free to contact me.

Thank You,

Phil D. Wright, R.S.

Soldier Summit, Utah

Dear Sirs,

In response to your request in regards to law enforcement in your city, we cannot commit the resources of Division 9 UHP personnel except for traffic accident investigation. We will continue to respond to other law enforcement needs of Soldier Summit as our resources permit.

The fact that Soldier Summit lies in Wasatch County causes a jurisdiction problem for us in any court action that may arise, as we have to travel to Heber City for court.

Due to the large area we have to patrol and the limited amount of troopers we have to cover it, response time to your city is always a problem.

The UHP's primary responsibility is traffic enforcement and traffic accidents. In the past, we have handled other law enforcement problems in Soldier Summit, done a preliminary investigation and then turned it over to the Wasatch County Sheriff. We will continue to handle these types of cases in this manner.

Sincerely,
